- Diversify your customer base
- Find a differentiating offer compared to your competitors
- Create a link with your collectors
- Art as an asset
- A personalised solution adapted to each purchase

COMPANIES & PROFESSIONS

Leasing with purchase options offers the possibility of bringing art into your offices, enhancing your business assets and capitalizing for the future. It is a financing solution that allows companies to acquire works of art while spreading the payment over a fixed period and benefiting from an attractive financing solution.

DEVELOPING YOUR COMPANY'S ARTISTIC HERITAGE - DECORATING AND FURNISHING YOUR OFFICES WITH ART

- Tax benefits for the company with 100% deductible rent
- Create a link and a strong image for your companies
- Option to purchase with residual value acquisition at the end of the rental period (LOA)
- Rental of works of art from 13 to 48 months
- Rental open to any medium: works of art, photographs, sculptures, prints etc...

In order to benefit from the tax advantages linked to leasing and the deduction of the rental payments, the works of art must be exhibited in shared offices and professional salons, accessible to the public.

The amount of the rent must be in line with the company's turnover.
